

Tender No. 04/2016

Construction of Road Nos. 1 & 5 and Drainage Systems at Duqm Port

Brief description of Works:

The project consists of construction of Road 1, Road 5 and Drainage System. Road 1 is dual carriageway and connecting existing National Route No. 32 (Duqm-Mahoot Road) with existing road near to Duqm Port. The length of Road 1 is about 2.7 KM. Road 5 is dual carriageway and connecting Road 1 with the liquid jetty. The length of Road 5 is about 3.3 KM. The project also consists of street lighting along the Roads. The Roads are to be constructed over improved ground due to the presence of Sabkha soil. The ground improvements works are part of the project. The drainage system is proposed to drain storm water of the local area through channel to the main drainage network.
